

PATIENT REPORTED OUTCOMES FOR BLADDER MANAGEMENT IN SPINAL CORD INJURY

Tell us how **YOUR** bladder affects **YOUR** quality of life!

Study participants need to:

- Be 18 years of age or older
- Have a recent or past spinal cord injury
- Be willing to participate in a 30 minute enrollment phone interview
- Complete questionnaires about your health and quality of life related to your bladder management and spinal cord injury every three months for one year
- We will compensate you with \$50 at enrollment and \$50 at the end of one year for completed questionnaires
